

Universität Zürich
CTA meeting 2009

How to connect to WLAN at the University

WLAN parameters:

- SSID: public
- WEP: disabled
- DHCP: enabled

Registration:

To access the WLAN, an initial registration of each conference participant is required. This can be done online at your first attempt to access the network:

Open a JavaScript-capable web browser and go to

http://www.id.uzh.ch/dl/mobil/kongresskonten/registration_en.html

Enter the event-ID: **09CTA338** and provide your name and a valid email address. After submission, your *username* and *password* will be displayed. They will be valid for the duration of the workshop.

Please write them down or store them locally on your computer.

Login:

- **Start** your web browser
- **Open** any remote web page, eg. www.google.com
You will be redirected to the University GATE site
- **Read** the UZH gate terms and conditions of use via the authentication page
- **Login** to the Open net using your University WLAN *username* and *password*
- **Accept** the certificate permanently and ignore the subsequent warning.
- You now have Internet access (repeat these steps on expiration of lease).

How to connect to WLAN at the parallel sessions

WLAN parameters:

- SSID: **cta09**
- encryption: WEP 64 bit
- network key: **AD632C0029**
- DHCP: enabled

Registration:

No registration is required.

Please keep in mind that we have to share a single DSL line for all parallel sessions. Therefore the total bandwidth for all users is limited to 5 Mbit/sec.
